

Stem Cell Therapies: Now and in the Future

A Free Public Lecture on Stem Cell Research: 27 July 2010

CSIRO is holding a free public lecture on stem cell research titled Stem Cell Therapies: Now and in the Future.

Stem Cell Therapies: Now and in the Future

There has been huge interest in the area of stem cell research and our three expert speakers will present information on what is happening in their research areas now and where they see potential applications of this research in the future. They will also form a panel discussion to answer questions from the public.

- > **Professor Andrew Elefanty MB BS PhD FRACP**
Embryonic Stem Cell Differentiation Laboratory,
Monash Immunology and Stem Cell Laboratories
- > **Dr Ngaire Elwood PhD**
Director of the BMDI Cord Blood Bank and
Head, Cord Blood Stem Cell Research Program
at the Murdoch Childrens Research Institute
- > **Associate Professor David Haylock PhD**
Research Leader CSIRO Molecular and Health Technologies

- Date:** Tuesday 27 July 2010
